---

Dear Hiring Manager,

I am writing to express my interest in opportunities within your esteemed organisation, particularly in roles such as Data Analytics. With two years of experience as a Data Analyst at AGON Internet Private Limited, I have honed my skills in data extraction, analysis, and visualization, enabling me to transform complex datasets into actionable insights that drive strategic decision-making.

My expertise in SQL, Python, PowerBI, MS Excel and Tableau has allowed me to conduct comprehensive data mining and create clear visualisations for non-technical stakeholders. I have successfully implemented data quality checks and crafted optimised SQL queries, significantly enhancing data processing efficiency. My recent projects, including a Real Estate Market Analysis and Customer Acquisition Management, have further solidified my analytical capabilities and my ability to deliver impactful insights.

I am particularly drawn to opportunities in Pune and Bengaluru, where I can leverage my skills to contribute to data-driven initiatives. I am committed to continuous learning and staying updated with emerging trends in data analytics, ensuring that I bring the most relevant insights to the table.

Thank you for considering my application. I look forward to the possibility of discussing how my background and skills align with the needs of your team.

Sincerely,

**Mridul Pahapalkar**
