Detail-oriented Data Analyst with 2 years of experience extracting, analyzing, and visualizing data to drive business decisions. Proven expertise in SQL, Excel, and Power BI, with strong support from Python and Tableau for advanced analytics and dashboarding. Adept at turning raw data into actionable insights to improve operations, marketing, and performance tracking.

Experience

● ONE23 AGON INTERNET PRIVATE LIMITED2022 - 2024

- Conducted **data mining and analysis on datasets** of over 100,000+ records using **SQL and Python**, delivering insights that shaped marketing and operational strategies.
- Transforming intricate datasets into clear, **actionable visualizations** that facilitate informed **decision-making** for non-technical stakeholders, **enhancing overall business understanding**.
- Crafting **optimized SQL queries** to efficiently **extract and manipulate data** from relational databases, significantly reducing query execution times and improving overall data **processing efficiency**.
- Implemented robust **data validation and quality checks**, ensuring **95%+ data accuracy** for critical **business reports and KPIs**.
- Engaging in **continuous learning and professional development** to stay abreast of emerging trends and technologies in data analytics, enhancing personal and organizational capabilities.
