This is to certify that **Mridul Pahapalkar** was employed with **ONE23 AGON INTERNET PRIVATE LIMITED** as a Data Analyst from 01/03/2022 to 01/03/2024.

During their tenure with us, Mridul Pahapalkar was responsible for performing various data analysis tasks, supporting the company in making data-driven decisions and providing actionable insights. Their key responsibilities included:

1. Collecting, cleaning, and organizing large datasets to ensure data accuracy and consistency.
2. Conducting data analysis using tools such as Excel, SQL, Python and data visualization software like Tableau/Power BI.
3. Generating reports and dashboards to track key performance metrics and present findings to stakeholders.
4. Collaborating with cross-functional teams to identify business challenges and provide data-driven solutions.
5. Conducting statistical analysis and predictive modeling to forecast trends and optimize business operations.
6. Assisting in the development of automated data processes to streamline business reporting and operations.

Mridul Pahapalkar exhibited strong analytical thinking, attention to detail, and a keen ability to interpret complex data. They were a valuable asset to our team, demonstrating high levels of professionalism, dedication, and a positive attitude towards work.

We wish them success in their future endeavors and highly recommend them for any role they pursue in data analysis and related fields.

Please feel free to contact us if you require any further information.

Sincerely,

Abhishek Gupta

Managing Director
